

Washington State Auditor's Office

Satsop School District No. 104

October 6, 2016

Board of Directors
P.O. Box 96
Satsop, WA 98583

Dear Board of Directors:

We have completed our assessment audit of the Satsop School District No. 104 from September 1, 2014 through August 31, 2015, and have presented the results that audit in the attached report. That report is a public record and will be posted to our website, www.sao.wa.gov.

We want to emphasize that if conditions change, a different type of audit may be required in future years. For example, if the District spends \$500,000 or more in federal funds in any fiscal year beginning prior to January 1, 2015, or \$750,000 or more in any fiscal year beginning thereafter, federal rules require the District to receive a financial statement and single audit for that year. Also, if student enrollment exceeds 250, an onsite audit could be performed based on a pre-determined schedule. If you have exceeded or anticipate exceeding these thresholds, we ask that you contact our Office so we can help you meet your audit requirements.

If you have any questions or concerns, please do not hesitate to contact Cheryl Thresher, School Programs Manager at (360) 725-5608 or threshec@sao.wa.gov.

Sincerely,

TROY KELLEY
STATE AUDITOR

AUDIT SUMMARY

Results in brief

Based on the procedures performed, nothing came to our attention in the areas we reviewed that caused us to believe the District was not in substantial compliance with applicable state laws, regulations, and its own policies, or had significant weaknesses in controls over the safeguarding of public resources. Had we performed additional procedures, other matters might have come to our attention that would have been reported.

About the assessment audit

This report contains the results of our independent audit of Satsop School District No. 104 from September 1, 2014 through August 31, 2015.

Management is responsible for ensuring compliance and adequate safeguarding of public resources from fraud, loss or abuse. This includes the design, implementation and maintenance of internal controls relevant to these objectives. School Districts are also required by state law (WAC 392 117-035) to prepare and submit certified annual reports to the Office of the Superintendent of Public Instruction (OSPI) detailing the District's revenues and other financing sources, expenditures and other financing uses, assets, liabilities, financial condition, and fund balances.

This assessment audit was conducted under the authority of RCW 43.09.260, which requires the State Auditor's Office to examine the financial affairs of all local governments at least once every three years. Assessment audits are risk-based, limited scope reviews of small local governments, generally defined as school districts with 250 or fewer FTE students, and other local governments with less than \$300,000 in annual revenues. To help minimize audit costs, our work for this engagement was conducted off-site primarily using financial and other information provided by the District.

This assessment audit was limited to the following:

- Reviewing meeting minutes for compliance with the Open Public Meetings Act.
- Inquiring as to internal controls over assets, revenues, and disbursements.
- Verifying that annual reports submitted to our Office were complete and filed timely in compliance with state law.
- Reviewing the District's annual revenues and expenditures for unusual transactions or trends.

- Corroborating financial information reported by the District by comparing its annual revenues, expenditures, and cash and investment balances to third-party sources.
- Reviewing expenditures for indications of unusual activities, excessive Board of Directors compensation, conflicts of interest, or procurement requirements
- Evaluating the District's financial information for indications of financial difficulties.
- Using validation queries to verify the completeness and accuracy of WESPAC data.
- Reviewing payroll transactions for unusual or excessive payments.
